Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 are, drawn to a method of producing a vaccine.

Group II, claim(s) 14-18 are, drawn to a vaccine.

Group III, claim(s) 20-21 are, drawn to a method of treating an animal.

Group IV, claim(s) 22 is, drawn to a modified cell.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature linking group I-IV appears to be a method of modifying cells to increase production of trehalose.

However, Londesborough et al. (US Patent 5,422,254) teach a method of modifying cells to increase production of trehalose (see the title and abstract).

Therefore, the technical feature linking the inventions of groups I- IV does not constitute a special technical feature as defined by the PCT Rule 13.2, as it does not define a contribution over the prior art.

Furthermore as set forth above, each of group I-IV has a special technical feature that is not required for the other groups.

3. A telephone call was made to Daniel A. Monaco (Reg # 30,480) on 12/11/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khatol Shahn-Shah whose telephone number is (703) 308-8896.
